CITY CLERK
HONOLULU, HAWAII

I would support this because we shouldn't be the only county in Hawaii who doesn't have a ban on plastic bags. I everyone other county in Hawaii has it I think that we should have it to, it would also represent our state together as a whole instead of just having all the counties except for Honolulu. This would also help the environment and the sustainability of Hawaii and our consumption of oil. With us producing less plastic bags we would consume less oil. This would help Hawaii come one step closer to being less dependent on oil.

We are trying to also save Hawaii's environment and with having less plastic bags, many native animals like the sea turtle will be less affected by plastic bags being littered. If we produce less plastic bags than we would no longer need that amount of oil used to make them. Reducing the use of plastic bags, reduces our use of oil.
